Democratization theory

A game-theoretic approach

Lecture 01

Antônio Morales

Insper - Instituto de Pesquisa e Ensino

Table of contents

1. Introduction

2. Democracy: how to define

3. Building Blocks: the model

4. Initial data

Book to be used

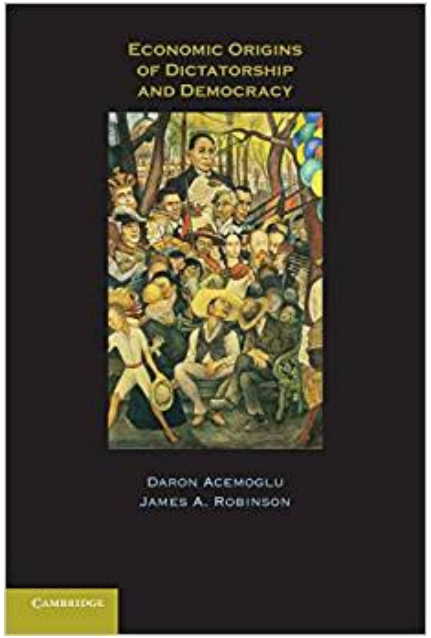

Figure: Acemoglu, D., and Robinson, J. A. (2006). Economic origins of dictatorship and democracy. Cambridge University Press

Motivation

- **Main goal:**

Motivation

- **Main goal:**
  - Why does some countries are democracies?

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy
    - Political Institutions shaping decisions

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy
    - Political Institutions shaping decisions
    - Elites x Citizens

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy
    - Political Institutions shaping decisions
    - Elites x Citizens
- **Approach:**

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy
    - Political Institutions shaping decisions
    - Elites x Citizens
- **Approach:**
  - Preference based individuals

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy
    - Political Institutions shaping decisions
    - Elites x Citizens
- **Approach:**
  - Preference based individuals
  - Game theory

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy
    - Political Institutions shaping decisions
    - Elites x Citizens
- **Approach:**
  - Preference based individuals
  - Game theory
  - Political institutions: *de facto* x *de jure* power

Motivation

- **Main goal:**
  - Why does some countries are democracies?
  - Why does some countries consolidate their democracies?
  - Democracy x Non-democracy
    - Political Institutions shaping decisions
    - Elites x Citizens
- **Approach:**
  - Preference based individuals
  - Game theory
  - Political institutions: *de facto* x *de jure* power
  - Social Conflict: class conflict

Democracy

- **How to define democracy?**

Democracy

- **How to define democracy?**
  - Different kinds of democracies: US x France

Democracy

- **How to define democracy?**
  - Different kinds of democracies: US x France
  - Different kinds of non-democracies: China x Chile (Pinochet)

Democracy

- **How to define democracy?**
  - Different kinds of democracies: US x France
  - Different kinds of non-democracies: China x Chile (Pinochet)
- **Focus on commom elements**

Democracy

- **How to define democracy?**
  - Different kinds of democracies: US x France
  - Different kinds of non-democracies: China x Chile (Pinochet)
- **Focus on commom elements**
  - Political equality to define democracy

Democracy

- **How to define democracy?**
  - Different kinds of democracies: US x France
  - Different kinds of non-democracies: China x Chile (Pinochet)
- **Focus on commom elements**
  - Political equality to define democracy
  - Movements toward more equality

Democracy

- **Democracy:** interests of the majority

Democracy

- **Democracy:** interests of the majority
  - Majority regime (median voter here)

Democracy

- **Democracy:** interests of the majority
  - Majority regime (median voter here)
- **Non-democracy:** interests of the few

Democracy

- **Democracy:** interests of the majority
  - Majority regime (median voter here)
- **Non-democracy:** interests of the few
  - Elite regime

Democracy

- **Democracy:** interests of the majority
  - Majority regime (median voter here)
- **Non-democracy:** interests of the few
  - Elite regime
- Other factors <u>not</u> considered: lobbying, bribery, other types of persuasion

Democracy

- **Democracy:** interests of the majority
  - Majority regime (median voter here)
- **Non-democracy:** interests of the few
  - Elite regime
- Other factors <u>not</u> considered: lobbying, bribery, other types of persuasion
  - Occam's razor!

Democracy

- **Democracy:** interests of the majority
  - Majority regime (median voter here)
- **Non-democracy:** interests of the few
  - Elite regime
- Other factors not considered: lobbying, bribery, other types of persuasion
  - Occam's razor!
  - William of Ockham (1287 – 1347) was an English Franciscan friar, scholastic philosopher, and theologian, who is believed to have been born in Ockham, a small village in Surrey. He is considered to be one of the major figures of medieval thought and was at the centre of the major intellectual and political controversies of the 14th century. He is commonly known for Occam's razor, the methodological principle that bears his name, and also produced significant works on logic, physics, and theology. In the Church of England, his day of commemoration is 10 April. https://en.wikipedia.org/wiki/Occams_razzor

- **Economic approach:** Rational choice model

- **Economic approach:** Rational choice model
  - Well-defined preferences: individuals or groups

- **Economic approach:** Rational choice model
  - Well-defined preferences: individuals or groups
  - Actions define consequences

- **Economic approach:** Rational choice model
  - Well-defined preferences: individuals or groups
  - Actions define consequences
  - Expected utility approach

- **Economic approach:** Rational choice model
  - Well-defined preferences: individuals or groups
  - Actions define consequences
  - Expected utility approach
- **Game theory:** Multiple decision makers interacting strategically

- **Economic approach:** Rational choice model
  - Well-defined preferences: individuals or groups
  - Actions define consequences
  - Expected utility approach
- **Game theory:** Multiple decision makers interacting strategically
- **Outcome:** Preferences over regimes

- **Economic approach:** Rational choice model
  - Well-defined preferences: individuals or groups
  - Actions define consequences
  - Expected utility approach
- **Game theory:** Multiple decision makers interacting strategically
- **Outcome:** Preferences over regimes
- Abstracting from ideological preferences

- **Political decisions:** conflictual

- **Political decisions:** conflictual
  - Distributional conflict

- **Political decisions:** conflictual
  - Distributional conflict
  - Rich x poor

- **Political decisions:** conflictual
  - Distributional conflict
  - Rich x poor
  - Rich white x poor blacks (South Africa)

- **Political decisions:** conflictual
  - Distributional conflict
  - Rich x poor
  - Rich white x poor blacks (South Africa)
  - Winners x losers

- **Political decisions:** conflictual
  - Distributional conflict
  - Rich x poor
  - Rich white x poor blacks (South Africa)
  - Winners x losers
- Social groups as key political actors

- **Political decisions:** conflictual
  - Distributional conflict
  - Rich x poor
  - Rich white x poor blacks (South Africa)
  - Winners x losers
- Social groups as key political actors
- Political power a group has will define policies

- What is political power?

- **What is political power?**
- Two types of power (based on Hobbes)

- **What is political power?**
- Two types of power (based on Hobbes)
  - De facto: what a group can do to others by using force (e.g. armies and use of guns)

- **What is political power?**
- Two types of power (based on Hobbes)
  - De facto: what a group can do to others by using force (e.g. armies and use of guns)
  - De jure: allocated by political institutions

- **What is political power?**
- Two types of power (based on Hobbes)
  - De facto: what a group can do to others by using force (e.g. armies and use of guns)
  - De jure: allocated by political institutions
- Actual political power: combination of both

- **What is political power?**
- Two types of power (based on Hobbes)
  - De facto: what a group can do to others by using force (e.g. armies and use of guns)
  - De jure: allocated by political institutions
- Actual political power: combination of both
- Today x Tommorow commitment

Basic Theory

- **Conflict:** Elites x citizens (middle-class)

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When citizens manage a transition to democracy?

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When citizens manage a transition to democracy?
  - More de facto political power

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When citizens manage a transition to democracy?
  - More de facto political power
  - Costs of repression are high

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When citizens manage a transition to democracy?
  - More de facto political power
  - Costs of repression are high
  - Inequality is not so high

Basic Theory

- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When citizens manage a transition to democracy?
  - More de facto political power
  - Costs of repression are high
  - Inequality is not so high
- Dynamic is key to the model: account for changes in political power de facto to de jure

First glimpse to democratization

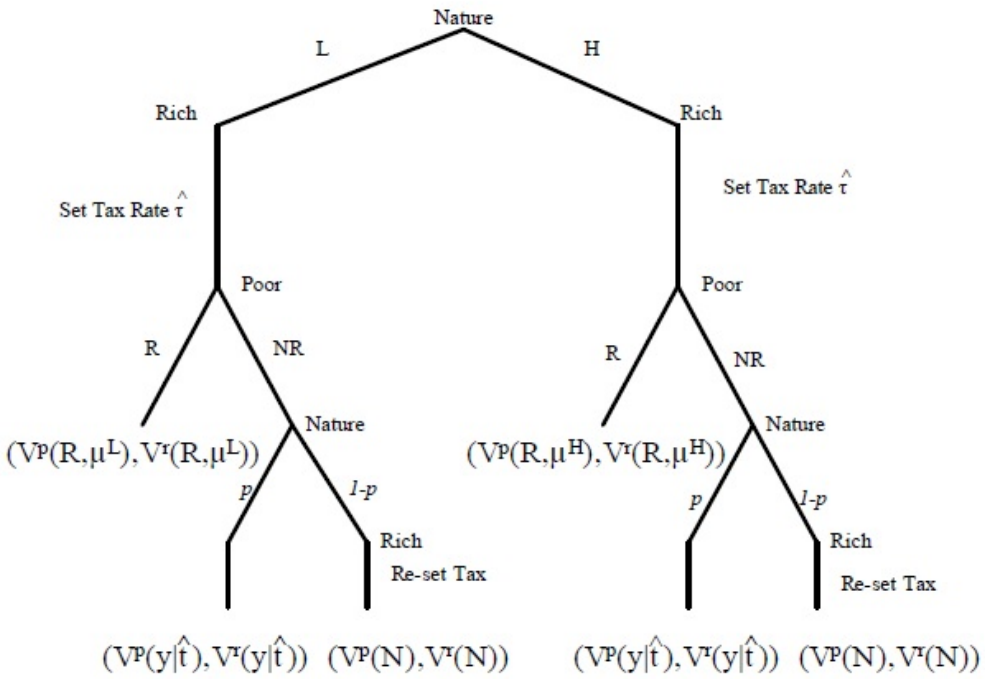

Figure: Democratization game

First glimpse to democratization

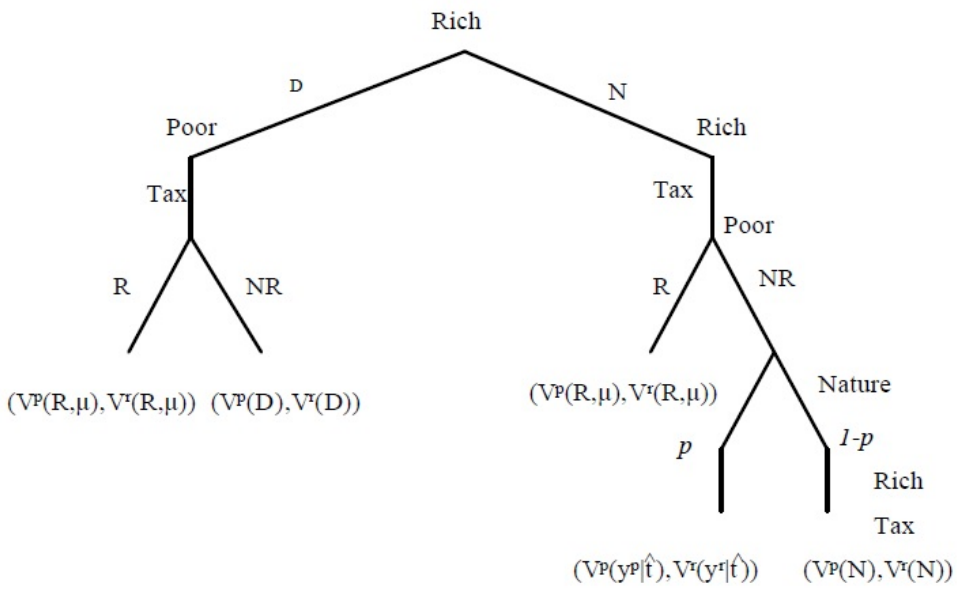

Figure: Democratization game (high probability of de facto power)

Essential aspects

- Transitory nature of de facto political power

Essential aspects

- Transitory nature of de facto political power
  - Adds dynamic to the model

Essential aspects

- Transitory nature of de facto political power
  - Adds dynamic to the model
  - Uncertaninty about promises

Essential aspects

- Transitory nature of de facto political power
  - Adds dynamic to the model
  - Uncertaninty about promises
  - Demand to de jure political power

Essential aspects

- Transitory nature of de facto political power
  - Adds dynamic to the model
  - Uncertaninty about promises
  - Demand to de jure political power
- Transition to to de jure political power as a commitment

Essential aspects

- Transitory nature of de facto political power
  - Adds dynamic to the model
  - Uncertaninty about promises
  - Demand to de jure political power
- Transition to to de jure political power as a commitment
  - Institutions are durable

Essential aspects

- Transitory nature of de facto political power
  - Adds dynamic to the model
  - Uncertaninty about promises
  - Demand to de jure political power
- Transition to to de jure political power as a commitment
  - Institutions are durable
  - Regulate future allocation of political power

Essential aspects

- Transitory nature of de facto political power
  - Adds dynamic to the model
  - Uncertaninty about promises
  - Demand to de jure political power
- Transition to to de jure political power as a commitment
  - Institutions are durable
  - Regulate future allocation of political power
- Repressions are costly

Basic Theory

- What about coups? Same reasoning!

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When elite manage a transition to a non-democracy?

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When elite manage a transition to a non-democracy?
  - More de facto political power

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When elite manage a transition to a non-democracy?
  - More de facto political power
  - Costs of supression are low

Basic Theory

- What about coups? Same reasoning!
- **Conflict:** Elites x citizens (middle-class)
  - Elites: prefer non democracy (rich)
  - Citizens (middle-class): prefer democracy (poorer)
- Distribuition of income is the key factor of preference
- When elite manage a transition to a non-democracy?
  - More de facto political power
  - Costs of supression are low
  - Inequality are high

First glimpse to coups

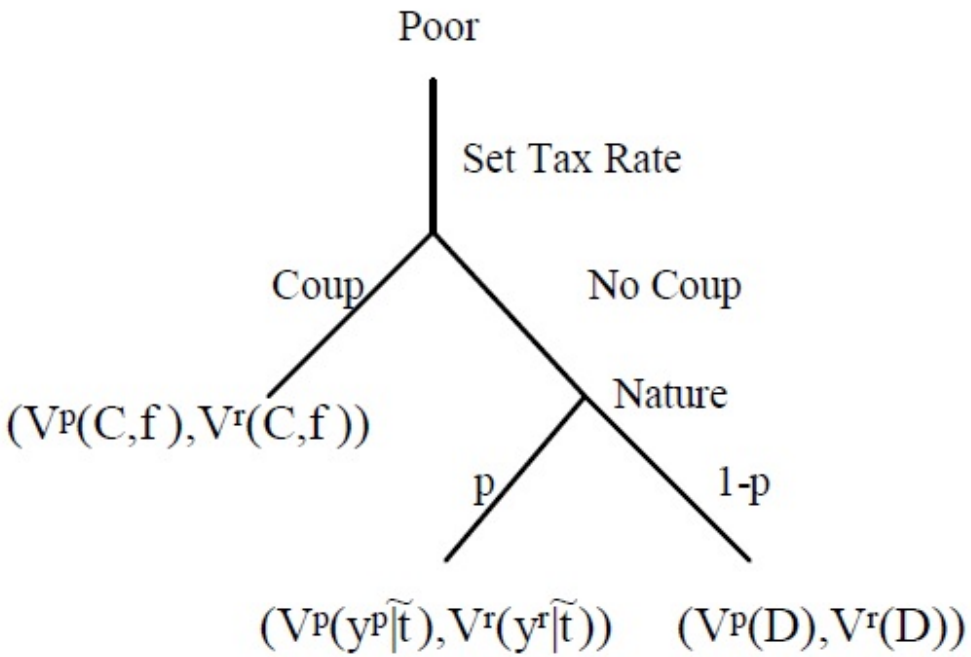

Figure: Coup game

Determinants of the model (democratization and consolidation)

- Civil society

Determinants of the model (democratization and consolidation)

- Civil society
- Shocks and crisis

Determinants of the model (democratization and consolidation)

- Civil society
- Shocks and crisis
- Sources of income and composition of wealth

Determinants of the model (democratization and consolidation)

- Civil society
- Shocks and crisis
- Sources of income and composition of wealth
- Political institutions

Determinants of the model (democratization and consolidation)

- Civil society
- Shocks and crisis
- Sources of income and composition of wealth
- Political institutions
- Middle class

Determinants of the model (democratization and consolidation)

- Civil society
- Shocks and crisis
- Sources of income and composition of wealth
- Political institutions
- Middle class
- Inter-group inequality

Determinants of the model (democratization and consolidation)

- Civil society
- Shocks and crisis
- Sources of income and composition of wealth
- Political institutions
- Middle class
- Inter-group inequality
- Globalization

Possible paths

1. Non-democracy gradually to democracy

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain
2. Non-democracy to democracy that quickly collapses

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain
2. Non-democracy to democracy that quickly collapses
   - Example: Argentina

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain
2. Non-democracy to democracy that quickly collapses
   - Example: Argentina
3. Democracy never created

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain
2. Non-democracy to democracy that quickly collapses
   - Example: Argentina
3. Democracy never created
   - Example: Singapore

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain
2. Non-democracy to democracy that quickly collapses
   - Example: Argentina
3. Democracy never created
   - Example: Singapore
4. Non-democracy sustained under repression

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain
2. Non-democracy to democracy that quickly collapses
   - Example: Argentina
3. Democracy never created
   - Example: Singapore
4. Non-democracy sustained under repression
   - Example: South Africa

Possible paths

1. Non-democracy gradually to democracy
   - Example: Britain
2. Non-democracy to democracy that quickly collapses
   - Example: Argentina
3. Democracy never created
   - Example: Singapore
4. Non-democracy sustained under repression
   - Example: South Africa

- What about Brazil?
